

ADVANCE YOUR GMP DIGITAL MATURITY

Join 150+ GMP Professionals for the event of the year! Be ready to succeed in the ever-changing regulatory environment and increasing global competition by investing in advancing your organization's GMP compliance.

Wednesday, October 26: Blue Mountain Ram R4 Training & Certification

HOW BLUE MOUNTAIN RAM SUPPORTS THE QMS

Uncover how Blue Mountain RAM supports quality systems by understanding the importance of audit readiness, reviewing how the software maps to 21 CFR Part 11, and more.

AUDIT PREPARATION AND NAVIGATION FUNDAMENTALS IN R4

Learn the fundamentals to support audit readiness, including standardization of data, custom workspaces for audit support, and workflows and rights.

AUDIT READINESS & BLUE MOUNTAIN RAM CERTIFICATION

Participate in scenario-based audit exercises and earn the Blue Mountain RAM Certification and LinkedIn Badge - create helpful queries for monitoring and retrieving data and reducing risk.

HAPPY HOUR AND NETWORKING

Thursday, October 27: Customer Knowledge Share

WELCOME TO THE 2022 BLUE MOUNTAIN SUMMIT

-- *David Rode, CEO of Blue Mountain*

DIGITAL TRANSFORMATION, PROCESSES, AND PEOPLE

Becoming a future-ready organization that reaches the highest level of GMP digital maturity to maintain industry leader status and remain resilient and profitable, even under challenging circumstances.

-- *Guest Speakers*

IMPACT OF COVID AND RISK-BASED APPROACH TO COMPLIANCE

Identify the highest compliance risks to your organization and learn how to make them a priority for the compliance controls, policies, and procedures. Join industry leaders to discuss how they have solved problems using risk-based approaches.

-- *Ginny Lee, Director of Professional Services at Blue Mountain*

-- *Guest Speakers*

BUILDING A CULTURE OF COMPLIANCE

Join industry experts for a discussion around identifying gaps in compliance programs and opportunities to improve compliance culture, including the adoption of innovative technologies.

-- *Chris Corsetti, Director of Facilities at ElevateBio*

-- *Chris Tencza, Site Director at Vertellus*

-- *Yijia Sun, Quality Assurance Manager at Blue Mountain*

EVOLVING BLUE MOUNTAIN RAM IN SUPPORT OF DIGITAL TRANSFORMATION

Join veteran users to discuss how they have evolved their uses of Blue Mountain RAM in respect to the lasting impacts COVID-19 has had on existing processes and an organizations' Industry 4.0 ambitions.

-- *Crystal Martinez, CMMS Program Manager at Cepheid*

-- *Donald Stuck, Associate Director at 2SeventyBio*

-- *Nick Sturniolo, Implementation Services Lead at Blue Mountain*

-- *Colin DeMoss, Implementation Services Lead at Blue Mountain*

COMPLIANCE FROM THE GROUND UP

Exploring the benefits of Blue Mountain RAM throughout the years. From an initial green field construction build 14 years ago, to today's complex construction projects, leverage lessons learned and best practices in a regulated, Life Sciences environment.

-- *Earlene Gibbons, Executive Director, Operational Technology in Pharmaceutical Manufacturing*

GLOBAL PROCESS IMPROVEMENT AND ENTERPRISE MANAGEMENT

Join speakers from global Life Science companies for a discussion around managing complex manufacturing and driving continuous improvement in people, processes, and software - lead to an increasingly compliant and productive manufacturing environment.

- Gary Lightner, Information Technology Manager, Thermo Fisher
- David Porrill, SME for Reliability Standards, Processes and Systems at Catalent
- Erik Hobizal, Calibration Manager, Quality Operations Engineering at Cepheid
- Jonathan Pingley, Implementation Manager at Blue Mountain

BLUE MOUNTAIN PRODUCT ROADMAP

See where Blue Mountain is headed in 2023 and 2024 – gaining a sneak peek at upcoming product and feature releases.
